Shade variation. Low: slight. Moderate: noticeable variation in tone and texture. High: significant; view the range before ordering.

Floors. 14 mm tiles in dry interior areas only. Glossy glazes have not been slip-tested; see the technical data sheet.

Swatches are a guide only; colours vary between batches. Other glazes are available on request.

Long-term crazing. The glaze may develop fine surface cracks over time.

Ratings. Wet-area and exterior ratings are the manufacturer's. PPWM, PPM6, PWMM and PM6M are rated by glaze family.
